

Rizki Firmansyah Setya Budi is a doctoral candidate in the Department of Electrical Engineering and Information Technology, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia. He received a Bachelor degree in Electrical Engineering, Gadjah Mada University, Yogyakarta, Indonesia. He obtained a Master in 2017 respectively in Electrical Engineering. His interests include power systems operation and planning, energy system modelling and applications of optimization in power engineering.

Sarjiya is an associate professor in the Department of Electrical and Information Engineering, Universitas Gadjah Mada. His interests include power systems operation and planning, the integration of renewable energy in the electric power grid, hybrid renewable energy systems and applications of optimization in power engineering. He received a B.Eng and M.Eng degree in electrical engineering from Universitas Gadjah Mada in 1998 and 2001, respectively. In 2008, he received a Ph.D. degree from Chulalongkorn University, Thailand.

Sasongko Pramono Hadi is a professor in the Department of Electrical Engineering and Information Technology, Faculty of Engineering, Universitas Gadjah Mada, Yogyakarta, Indonesia. He received a Bachelor degree in Electrical Engineering, Gadjah Mada University, Yogyakarta, Indonesia. He obtained a Master and Doctoral degree in 1985 and 1988 respectively in Electrical Engineering, with the research subject: Power System Adaptive Control, from The Institute Nationale Polytechnique de Grenoble (INPG), France.
